

Disposable, Evacuation and Infection Control Products CATALOG

JP Solutions and its family of brands – **Weltex, Ecotex, Tekmedic, Neuskin, and Perfection Plus** – are proud to present our newest product catalog.

We strive to offer premium quality products at prices that will allow you to provide excellent value to your customers while maintaining strong margins.

Why Ecotex is Unique:

We are deeply concerned about our environment and realize that disposable products have a negative impact on the planet. As a supplier of these products, we also understand the critical functions they play in a safe and productive clinical environment. In an effort to balance the needs of the planet and the practitioner, we have begun researching and developing **Ecotex** brand products that provide the form and function that your customers require but integrate the responsible application of the 3 Rs (Reduce, Reuse, Recycle).

Many changes are meaningful yet incremental as we search for new technologies and materials to continue to provide more environmentally friendly products. **Ecotex** products have innovative packaging designs or methods to REDUCE the use of packaging materials and REDUCE oil consumption in transportation. **Ecotex's** current dental sponge offering can save 500 tons of paper for the industry.

Ecotex products and packaging make use of natural, biodegradable and RECYCLED materials where possible to save trees and reduce landfill impact.

The name **Ecotex** is derived from Ecology and Economy, because these positive environmental efforts actually cost less. As we strive to bring more **Ecotex** products to market and reduce the impact of those currently available we will donate 5% of all profits from **Ecotex** sales to non-profit conservancy organizations.

Disposable Products

WELTEX

WELTEX Cotton Rolls

- Made from soft, super-absorbent 100% cotton
- Lint-free and smooth
- Maintain shape when wet and will not adhere to mucous membranes
- Pure white
- Non-sterile

#180411 Medium #2 (1½"x¾")
2,000 pc/box
12 boxes/case

WELTEX Non-Woven Sponges

- Premium 50 gram weight is most absorbent non-woven sponge available
- Made from a 4-ply rayon/polyester blend which provides for maximum absorbency and minimizes adhesion to wounds
- Significantly greater absorbency for the weight than cotton
- Soft, strong, smooth
- Virtually lint-free so no fibers are left in the patient's mouth
- Larger sizes ideal for surface and instrument cleaning
- Non-sterile

#180303 Premium 4x4/4 ply/50g

Call for custom quotes on 3x3/4 ply/50 g

WELTEX Patient Bibs/Towels

- The unique technique used to bond the layers of tissue and poly securely together eliminates separation of the layers
- Reinforced edges provide added strength and durability
- Heavy textured 2-ply tissue and 1-ply poly for absorption and patient protection
- Available in 5 popular colors

13"x19" 500 pc/case
#430100 Blue
#430200 Lavender
#430300 Dusty Rose
#430400 White
#430500 Green

Disposable Products

ECOTEX

ECOTEX Cotton-Filled Gauze Sponges

- Super absorbent, extra thick 100% cotton filled USP VII gauze
- Cotton center provides increased absorbency and patient comfort
- Consistent fill
- Pure white, non-sterile
- Manufactured with the environment in mind, including the use of all natural and biodegradable cotton product, packaging, and inks. Close proximity of cotton fields and other raw materials to factory significantly reduces energy and fuel consumption required to produce the product. Bio-burden of Ecotex cotton-filled gauze sponges is significantly lower compared with other brands. Special compressed packaging produces a 15% reduction in packaging material and a 10% reduction in fuel consumption. Significant shipping savings, as 15% more product will fit on a pallet.

Evacuation Products

WELTEX / ECOTEX

WELTEX Saliva Ejectors

- Fit all standard saliva ejector hose ends/6" length
- Bends to the right curve for maximum patient comfort
- High flow, smooth, flexible bonded tips won't come off
- Slotted bullet design of tip prevents suction of tissue and increases patient safety and comfort
- No memory; tip holds bend

100 pc/bag

10 bags/case

#850233 Clear with Blue Tip

#850231 White with White Tip

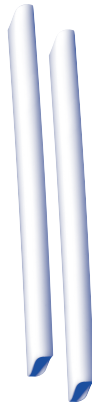

WELTEX Evacuation Tips

- Fit all standard evacuator hose ends
- One end vented, one end non-vented (dual use)
- Soft rigid tubing allows for greater patient comfort yet is strong enough for cheek retraction
- Smooth edges for maximum patient comfort
- Thoroughly polished surface for smooth and quiet operation
- Straight handle allows for increased control
- Convenient single-use disposable tips

100 pc/bag

10 bags/case

#850241 Vented/Non-Vented

WELTEX Surgical Aspirator Tips

- Made with smooth edges for maximum patient comfort
- Surgical aspirator is molded at a 30 degree angle and fits 11mm suction holders
- Autoclavable up to 135 C or may be disposed after single use

25 pc/bag

20 bags/case

#850251 1/4" Green

#850253 1/8" White

WELTEX Disposable Air/Water Syringe Tips

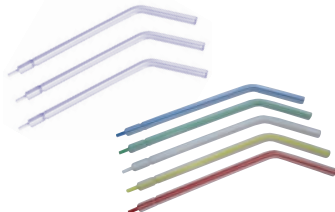

- Fit all standard air/water syringes without adapter
- Interchangeable with metal tips
- No leakage, guaranteed dry air
- Separate air and water tubes eliminate cross-over
- Smooth edge

250 pc/bag

6 bags/case

#850261 White

#850265 Assorted Colors

ECOTEX Evacuation System Cleaner

- Bacterial-based cleaner provides residual over-night debris removal from cuspidor drains and suction systems
- Works under all conditions, even in cold water
- Neutral pH, safe for amalgam traps
- Residual bacterial action; bacteria collect in bends and turns where they continue to liquefy debris
- Safe for equipment, environment and staff
- Pleasant scent
- Incredibly economical; 128 treatments per gallon
- Environmentally friendly; virtually foam free and 6 natural non-pathogenics work harmoniously to clean drains and suction lines

64 oz. bottle

4 bottles/case

#25301

Air/Water Syringe

- Well balanced design, and smooth styling for comfortable use
- Easy release for a speedy exchange of tips
- Fully autoclavable tips

SYR Air/Water Syringe

SYR-TIP Replacement Tip

Universal Quick Disconnect Vacuum Valve

- Single piece anodized aluminum body
- Easy removal lever and spool valve assembly
- Lightweight 360° quick disconnect swivel
- Autoclavable

HVE-QD

Deluxe Quick Disconnect Saliva Ejector Valve

- Single piece anodized aluminum body
- Easy removal lever and spool valve assembly
- Lightweight 360° quick disconnect swivel
- Autoclavable

DSE-QD

Infection Control Products

ECOTEX / TEKMEDIC / NEUSKIN

ECOTEX Powder-Free Latex Gloves

- Low protein for increased safety and minimum risk of protein allergies (50 mcg or less of water-extractable protein, the lowest defined content)
- Premium choice meets surgical glove 1.0 AQL standards
- Textured grip for both moist and dry environments
- Polymerized to facilitate donning
- Soft modulus for a precise feel and comfortable fit during extended wear
- Powder Free to reduce air-born particulates
- Manufactured with the environment in mind, including the use of all natural and biodegradable latex product packaging and inks. Biofuels are used for the manufacturing process. Special packaging design and packing procedure produces a 20% reduction in packaging material and a 15% reduction in fuel consumption. Significant shipping savings, as 15% more product will fit on a pallet.

Terms and Conditions

Returns: Before opening a sealed box or carton, please examine the label to ensure you have received the correct item.

Prior approval must be obtained from JP SOLUTIONS before merchandise may be returned for credit. Only standard merchandise of current stock, less than six months from original shipping date and accompanied by the original invoice will be accepted for credit. Shipment of returned merchandise must be prepaid.

Restocking fee: Merchandise approved and returned in the original unopened container and accompanied by the invoice, will be charged a 20% restocking fee.

Conditions: Purchasing of JP SOLUTIONS products from this list is open to recognized accounts and/or dealers of JP SOLUTIONS. Possession of a dealer's price list does not constitute an offer to sell. JP SOLUTIONS reserves the right to make changes in product design without any obligation to accept previously manufactured products for alteration, exchange or credit. Payment terms are net 30 days. A late payment fee of 1 1/2% will be assessed monthly on the total invoice past due.

Claims: Shortage claims must be made within 48 hours from receipt of the goods. Damaged goods must be reported to the carrier within 24 hours and damage claims must be filed by the consignee.
